

# POLYNOMIALLY BOUNDED $C_0$ -SEMIGROUPS: ERRATUM

TATJANA EISNER

To the author's regret, there is a small mistake in Lemma 2.2 in [1]. The following correction makes the argument correct. Replace

“Assume that for some  $a > s_0(A)$  the condition (1) holds. Then this condition also holds for all  $a > s_0(A)$  and ...”

in Lemma 2.2 by

“Assume that for all  $a > s_0(A)$  condition (1) holds. Then ...”.

The proof of Lemma 2.2 should start with “Let us define  $T(0) := Id$ ”.
